About Jill

” The only American accent training
methodology that lets you keep your
accent and excel at speech so you can gain
what you deserve. “

The Diamond Method™

Jill has devised a six-pronged musical approach to speaking English that guides second language professionals to clear and confident speech. These newfound communication skills lead organizations to greater inclusion, collaboration, and efficiency. The Diamond Method™ will:

- ✓ Show learners specific speaking tools that will increase their credibility so that they can have the career they dream of having.
- ✓ Allow learners to keep their accents and excel at speech.
- ✓ Reduce frustrations during cross-cultural communications so that interactions are based on trust and respect.

**Thought Chunking:**

Pausing and pacing communicate confidence, facilitate thinking, and establish trust with listeners.

Emphasis:

Knowing the right words to emphasize in a sentence delivers messages clearly and accurately.

Rhythm:

Using the correct syllable stress of English is at the foundation of being understood by native English speakers.

Melody:

Applying the musical patterns of sentences with stepping & gliding techniques allows for native-like speech.

Diction:

Sounding professional and building rapport with others requires clear pronunciation.

Flow:

Connecting and reducing words like native English speakers gives you the flow you need to sound more American.

Jill's Communication Principles
